

**Description:** Air actuated friction bite unit (FBU) for non-marking applications (i.e. chrome tubulars), with 3 jaw biting system, used in conjunction with 5-1/2" tong (other sizes available upon request)

**Specifications:**

- Part number 04A05C
- Maximum rated torque 15000 ft-lbs
- Air input requirement 80 PSI maximum
- Dimensions Diameter: 18", Depth: 13-1/2", Weight: 250 lbs

Note: If used with the 5-1/2" tong, then two jaws can be pulled from the tong for use in the FBU. One extra jaw must be ordered per the part numbers below.

- Tong 4-1/8" jaw (2-1/16" - 4-1/8") 707 05210 (less dies)
- Tong 5-1/2" jaw set (4-1/4" - 5-1/2") 707 05205 (less dies)

Note: Add "TC" to the end of the die part number if a non-marking type die is required.

- Wraparound dies 3 each required for each size jaw set
