

Description: The Model G and T-60 single string tubing spiders are operated pneumatically. Both models have the same load capacity, size range and bowl design. The difference lies in the slip bodies and inserts. A removable gate allows the spider to move off the string to pass large objects.

Specifications:

| Model | G | T-60 | Weight lbs (kg) |
|------------------------------------|------------------------------------|--|----------------------------------|
| Capacity | 120000 lbs (54431 kg) | | lbs (kg) |
| Tubing Spider Assembly | 61000-100 (w/o slip) N/A N/A | 50684 (w/o slip) 67580 (w/ 2-7/8" slip) 62458 (w/ 3-1/2" slip) | 155 (70) 190 (86) 191 (87) |
